

MARINE ANCHOR DAMPER SYSTEM ACC-9200

Nat. Freq. 12 - 25 Hz

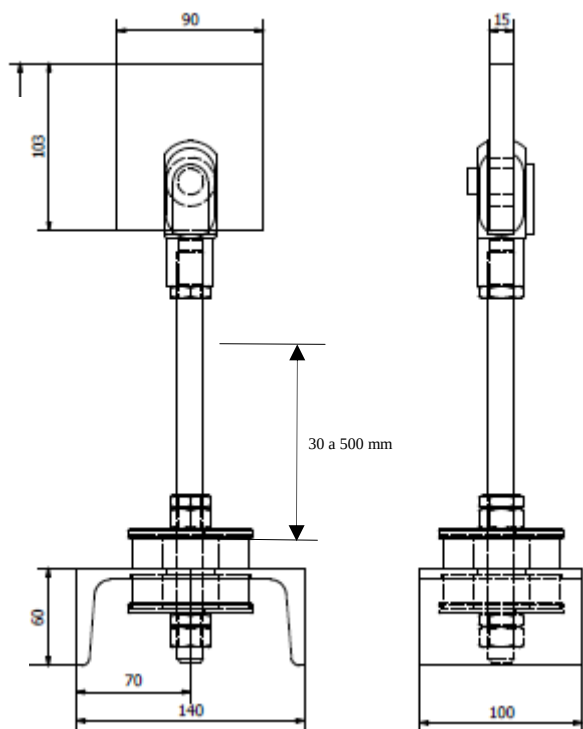

APPLICATIONS

Anti-Vibration damper to support exhaust pipelines and rotating equipment with speed above 720 rpm, air conditioning lines, compressors, ventilation in general, etc.

DESCRIPTION

- Galvanized or stainless Steel (marine environment).
- Stainless Steel mesh damping element.
- Carbon Steel or stainless Steel fasteners
- Natural Frequency: 12 - 25 Hz.
- Weight (depending on the model): 4 kg. aprox.
- Length of the extension rod: 30 a 500 mm.

DIMENSIONS

Reference	Static Load range (daN)
ACC-9200-01	25 - 250
ACC-9200-02	250 - 750
ACC-9200-03	750 - 1500
ACC-9200-04	1500 - 2000
